

Cherrit International (Far East) Pte Ltd is one of the major insulation material manufacturers and suppliers in Asia Pacific region. We have been servicing the insulation industries for more than 30 years and worked with most of the major insulation subcontractors. We supply to various oil and gas, petrochemical, power plant and pharmaceutical developments in the region and are familiar with most insulation specifications and requirements. With our experience and sound technical knowledge, we are able to provide good engineering solution in the insulation field and assist our customers with their insulation requirements.

Cherrit specializes in manufacturing of metal jacketing system from aluminium alloys, stainless steel, zincalume and pre-painted galvanised material. We produce heat laminated Polysurlyn and Polykraft Moisture Barrier System on metal jacketing and roll forming of corrugated and box ribbed panels. We are also the exclusive regional distributor of Polyguard Products from USA who specializes in Vapor Barrier and Weather Barrier Membrane System and Mechanical Corrosion Control Coatings.

Metal Jacketing and Tank Panel System

- Aluminium
- Zincalume
- Smooth, Stucco Embossed and 3/16" Corrugation finishes
- Deep Corrugated and Box Ribbed Panel
- Polysurlyn and Polykraft Moisture Barrier System
- Metal jacketing accessories and fixtures
- Stainless Steel
- Pre-Painted Galvanized

Polyguard Products

Vapor Barrier and Weather Barrier Membrane

- Fabwrap 20
- Insulrap 50
- Insulrap 30
- Alumaguard 60

Mechanical Corrosion Control Coatings

- CA-9 and CA-14 Coatings
- RG-2400 – Miracle Solution to "CUI" Problem
- Wet-Set Coatings

Insulation Materials

- Phenolic
- Polyurethane
- Flexible elastomeric foam
- Polyisocyanurate (PIR)
- High density pipe support
